IN ASSOCIATION WITH
MARVEL

THE YEAR 2156.

In **2122**, the multinational corporation **Weyland-Yutani** diverted their commercial towing vehicle, the ***Nostromo***, to the moon **LV-426**. Weyland-Yutani, purporting to answer a possible distress call, secretly wished to secure specimens of a dangerous alien species known as **Xenomorphs** for study and profit. Tragedy struck the crew.

In **2179**, a colony known as **Hadley's Hope**--built on LV-426--was overrun by Xenomorphs. All rescue attempts failed.

In **2195**, Weyland-Yutani purchased a **Talbot Engineering** research outpost on the icy moon **LV-695** after learning that lead scientist **Batya Zahn** may have discovered viable samples of the Xenomorph species. Their arrival freed hundreds of Xenomorphs dormant beneath the surface, and disaster ensued, resulting in the deaths of nearly every human involved and the loss of WY's ship, the ***Boreas***, to the moon's icy depths.

REPORT ON HOST VARIATION
CONCERNING THE XENOMORPH:
FIORINA 161

NOTES FROM THE FOURTH
RECORDED INTERACTION WITH
THE XX121 // FURY 161

The single surviving eyewitness
from the Fiorina 161 Xenomorph
interaction maintains that the host
was a dog. The actions of the
resulting Xenomorph certainly
appeared more canine. The host
birthed a quadruped Xenomorph
only hours after implantation.

“Don’t suppose you could describe what we’re looking for, exactly?”

--SERGEANT JAMES EARLY. MISSING, PRESUMED DEAD.

“Sure, James. It’s just a big slug that should be crawling around the floor somewhere.

Oh yeah, and it has teeth that look like it could eat half my %#\$&ing face.”

--CORPORAL ANDY HARRISON. MISSING, PRESUMED DEAD.

“I saw that butcher’s shop down there. Hacked up bits of...whatever those things are.

I don’t know who the biggest monsters are, you or them.”

--MEDICAL OFFICER CESAR CLEARY. MISSING, PRESUMED DEAD.

ANALYSIS_

Confirmed encounter with Xenomorph XX121.

What video and audio files we can access suggest the presence of another organism that came into conflict with both staff and known Xenomorph type.

Advise immediate investigation.

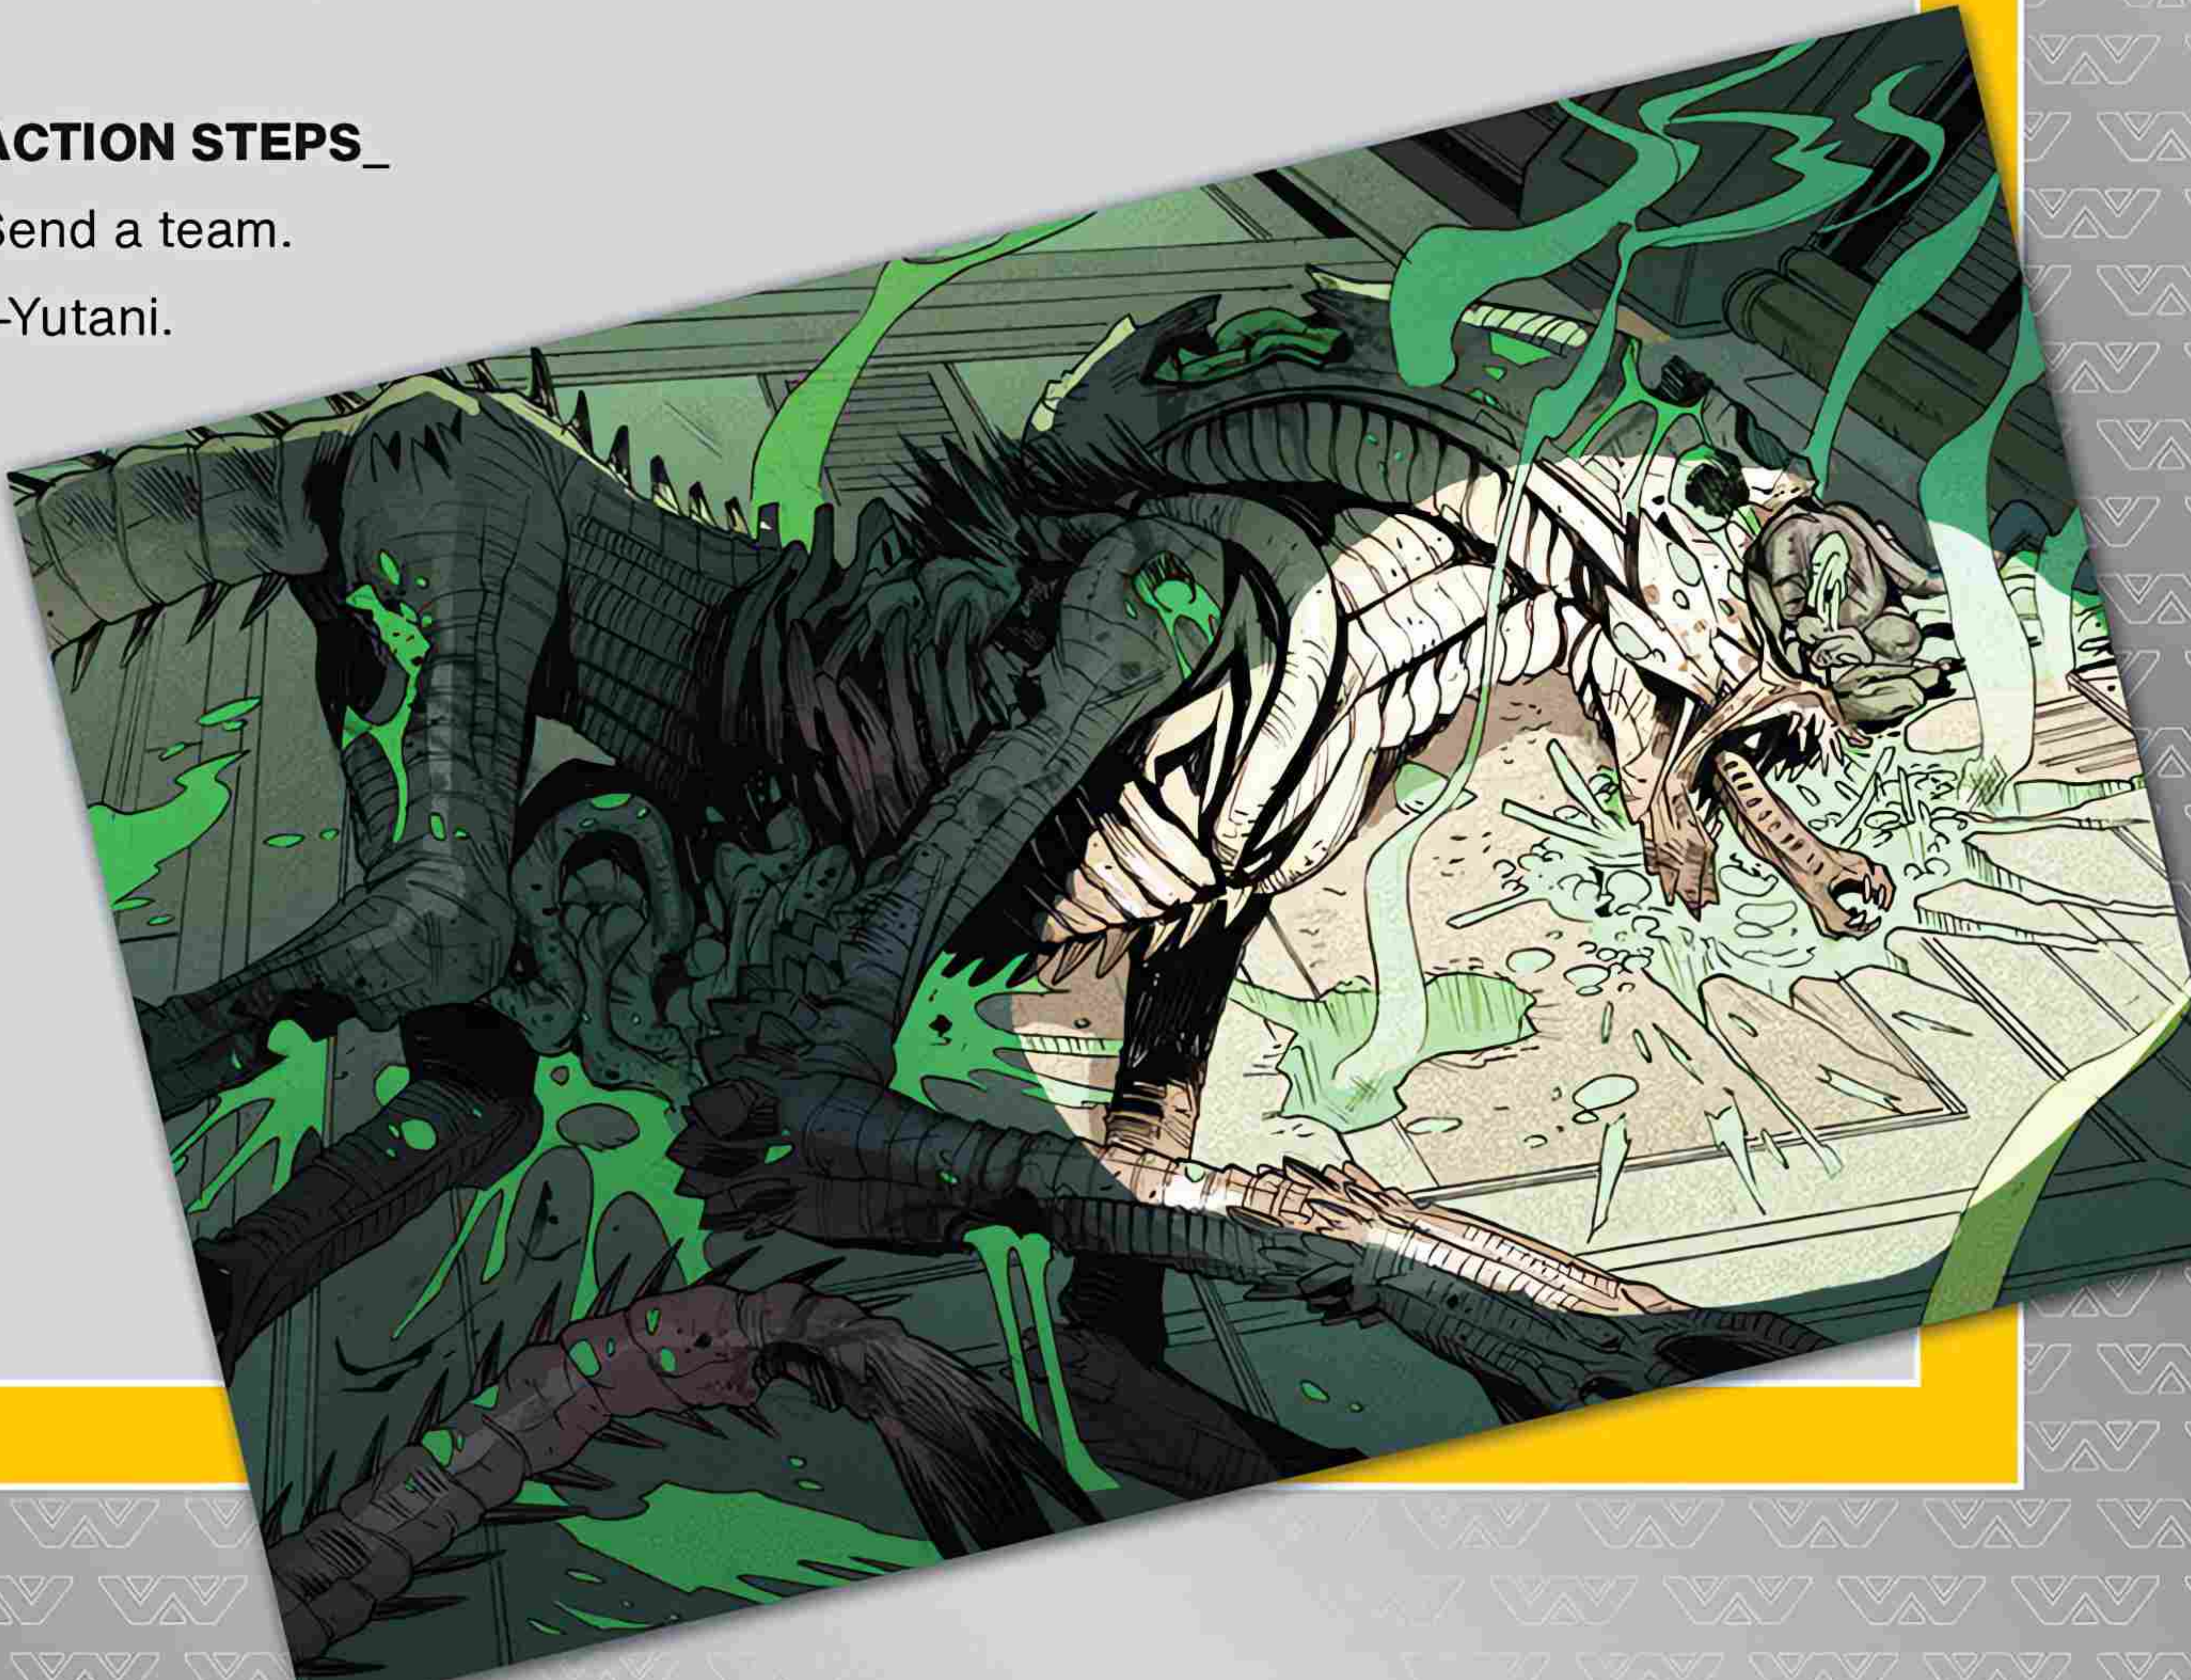

If a hybrid species has been discovered, samples must be obtained.

The research possibilities are...vast.

ACTION STEPS_

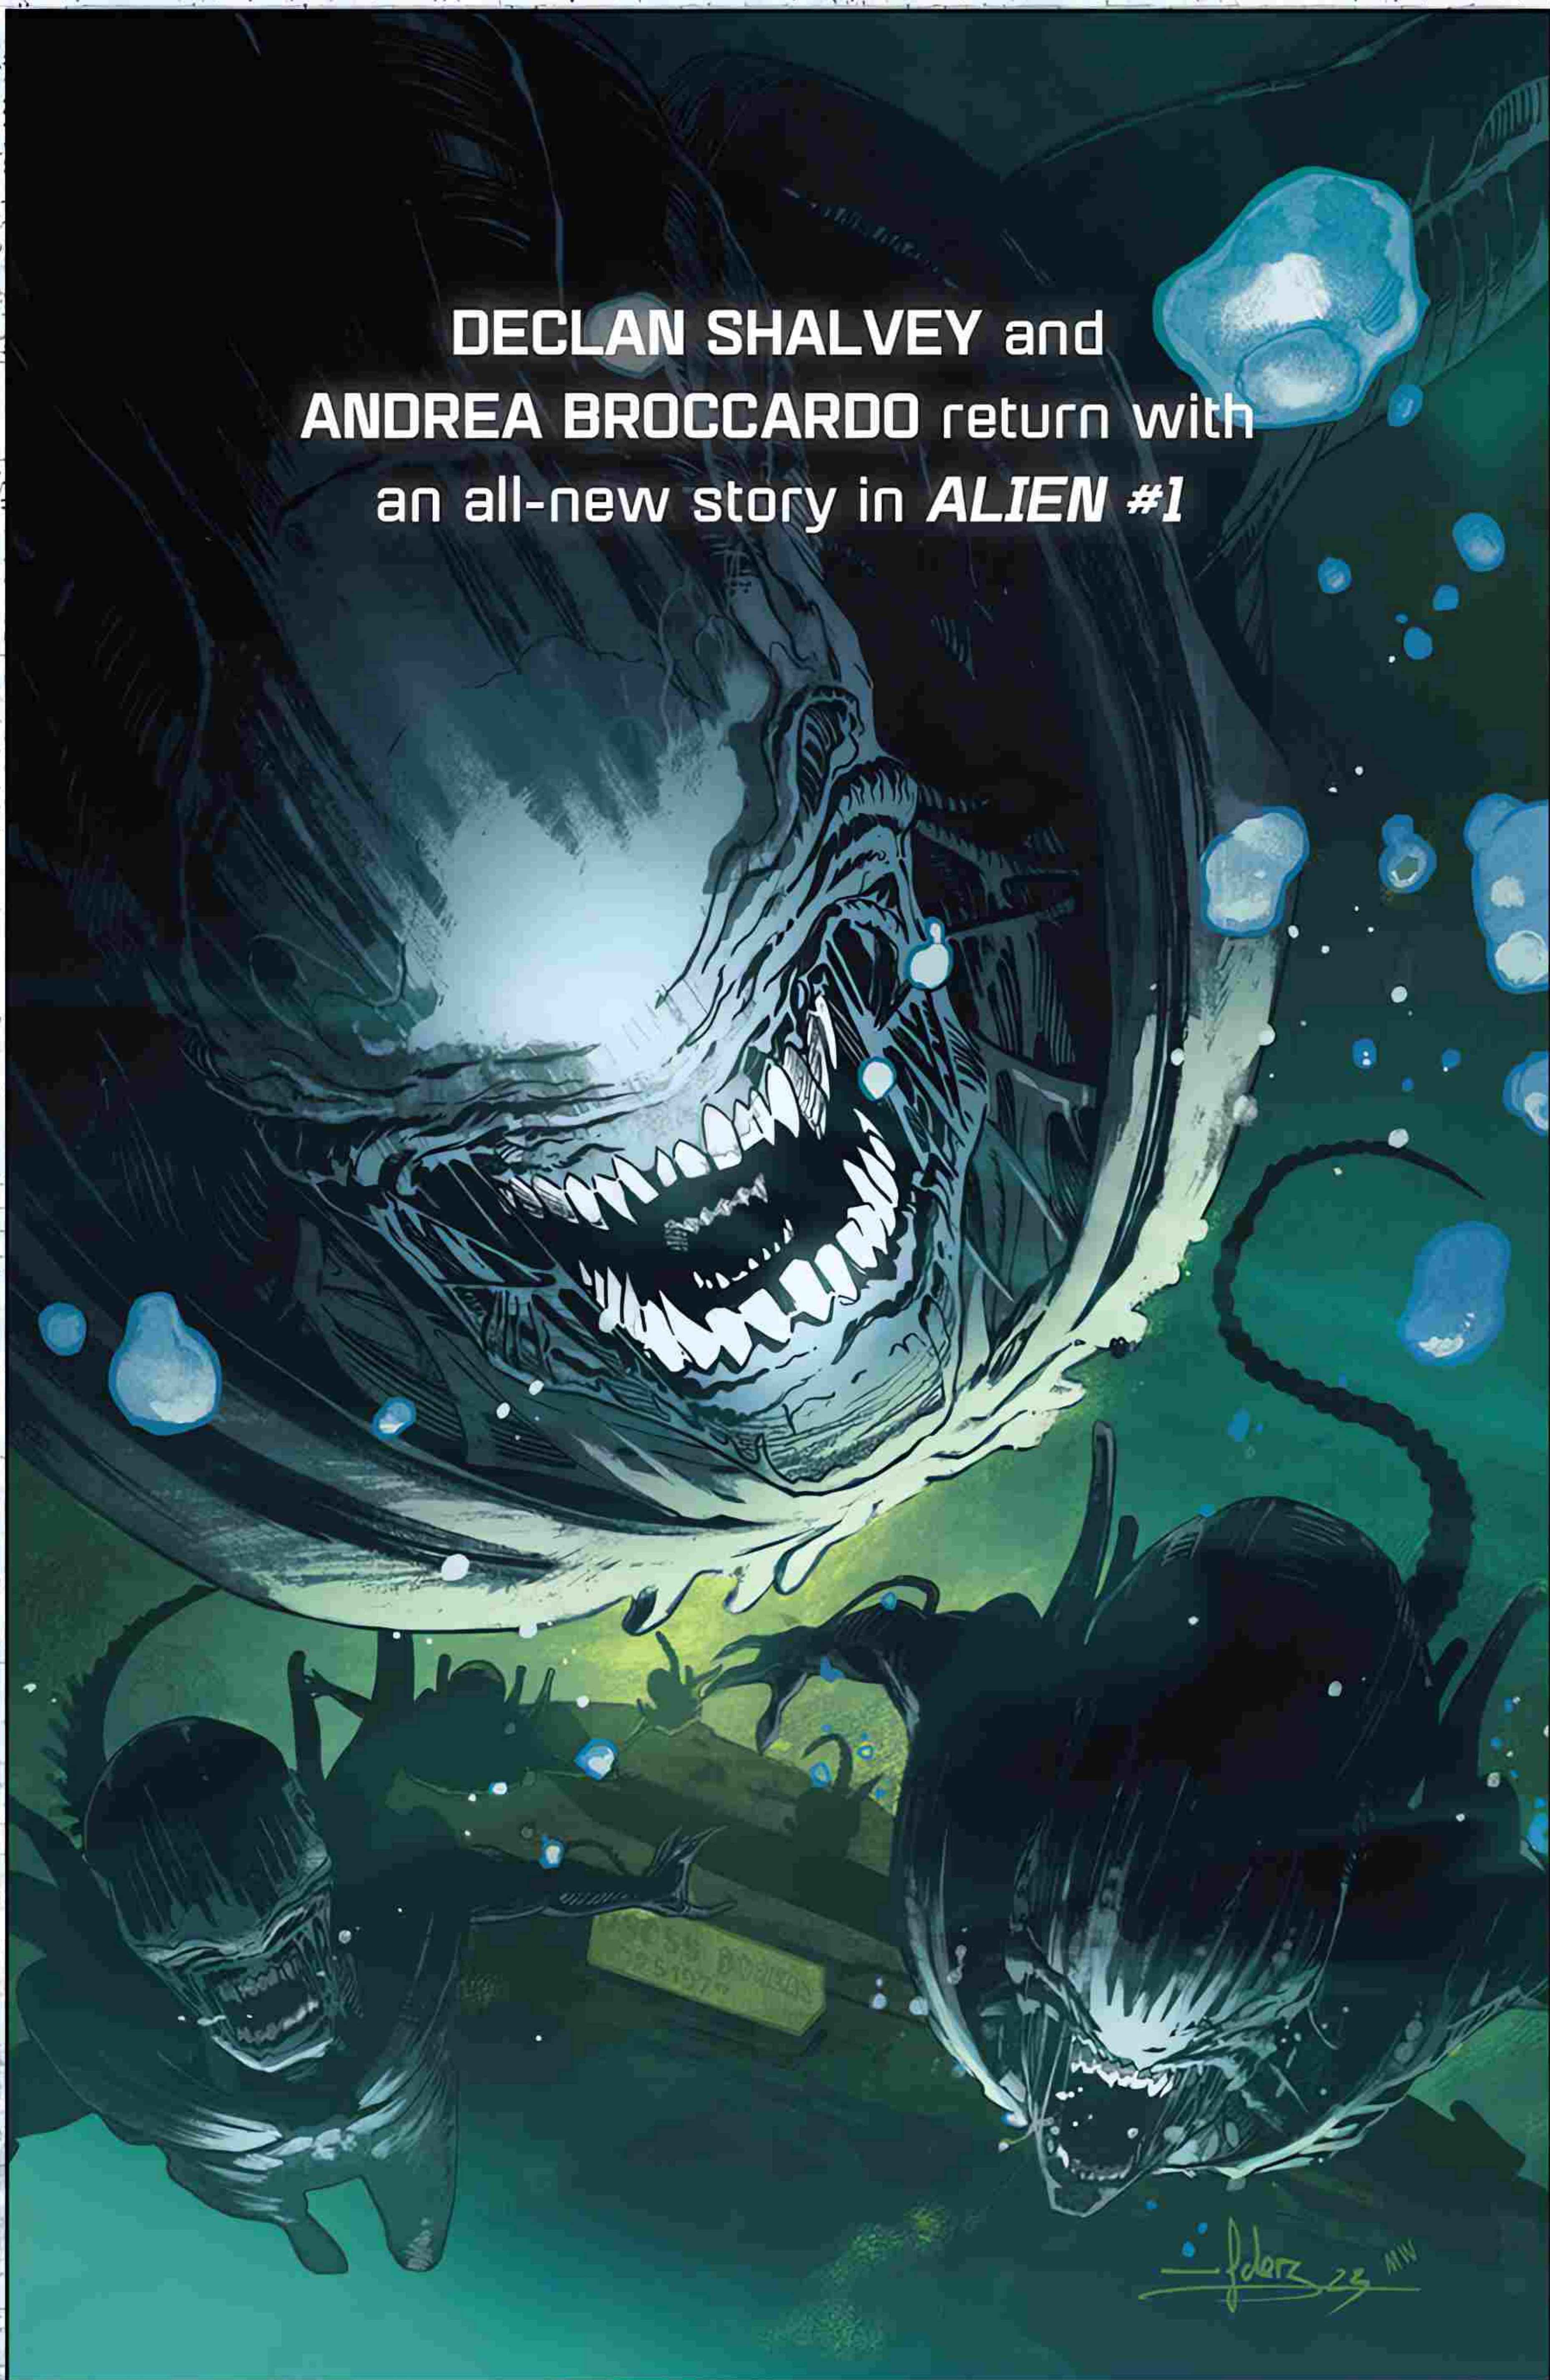

Send a team.

--Yutani.
